Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the PTO processes the reply to the Notice, the PTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

CROSS REFERENCE TO RELATED APPLICATION

This application is a continuation-in-part of prior application entitled "Tension Activatable Substrate", filed on November 3, 2000 in the name of Junan Kao et al.

15

FIELD OF INVENTION

This invention relates to flexible substrates user activatable from a first state of intensive properties to a second state of intensive properties.

20

BACKGROUND OF THE INVENTION

Nonwoven substrates, particularly tissue papers, are well known in the art. Tissue papers are commonly used as facial tissues, bath tissue, paper towels, napkins and wipes. More recently, synthetic nonwovens have been used in the shower as poofs for washing one's skin and as a disposable mophead for cleaning floors and other hard surfaces. Suitable body wash implements are disclosed in commonly assigned U.S. Pat. No. 5,650,384, issued July 22, 1997 to Gordon et al., and commonly assigned Pat. Apps. WO 98/15262, WO 99/25318, WO 99/06793, all of which are incorporated herein by reference. Exemplary mops having disposable nonwoven substrates are illustrated by commonly assigned U.S. Pat. No. 6,101,661, issued Aug. 15, 2000 to Polieicchio et al., and U.S. Pat. No. Des. 409,343, issued May 4, 1999 to Kingry et al., both incorporated herein by reference, and by the mops marketed by the instant assignee as Swiffer mops. Discrete apertured nonwoven substrates are also illustrated in commonly
